

## Defect Report - Guru99 Bank Application

Defect Attributes	Details
Defect ID	BANK-001
Project Name	Guru99 Banking Application
Module Name	Fund Transfer
Sub Module Name	Internal Fund Transfer
Phase	System Testing
Type of Defect	Functional
Severity	High
Priority	Critical
Summary	Funds are not deducted from the sender's account after transfer.
Description	When a user initiates a fund transfer, the transaction is marked as successful, but the sender's account balance remains unchanged. This leads to incorrect balance calculations.
Status	Open
Reported by/on	Tester1 / 2025-02-22
Assigned to	Developer1
CC to	Test Manager, Project Lead

Defect Attributes	Details
Defect ID	BANK-002
Project Name	Guru99 Banking Application
Module Name	Login
Sub Module Name	Password Reset
Phase	System Testing
Type of Defect	Security
Severity	Critical
Priority	High
Summary	Password reset link remains valid after expiry time.
Description	The password reset link is supposed to expire after 15 minutes, but users can still use it even after an hour, leading to security vulnerabilities.
Status	Open
Reported by/on	Tester2 / 2025-02-22
Assigned to	Developer2
CC to	Security Team, Test Manager

Defect Attributes	Details
Defect ID	BANK-003
Project Name	Guru99 Banking Application
Module Name	Account Management
Sub Module Name	Account Deletion
Phase	Integration Testing
Type of Defect	Functional
Severity	Medium
Priority	Medium
Summary	Manager can delete an account with an active loan.
Description	The system allows a bank manager to delete a customer's account even when the customer has an active loan, which violates business rules.
Status	Open
